PRODUCT INFORMATION *GERMAN ADLER OIL TREATMENT*

Description

GERMAN ADLER OIL TREATMENT is an additive made up of a selected combination of high quality materials. The additive is suitable for all 4-stroke in gasoline and diesel engines and was designed to significantly reduce wear and abrasion. This leads to a reduction in oil consumption and counteracts the oxidation of the engine oil. Plastic and rubber seals are regenerated and kept supple. It has been optimized for use in vehicles with particulate filter, has a reduced phosphate content, uses ash-free ingredients and is free of heavy metals.

Application

Add GERMAN ADLER OIL TREATMENT to the engine oil after each oil change. Suitable 300 ml for 5 l engine oil.

Stocking

The product should be stored in a dry and well ventilated room.

Advantages/Benefits

- reduces wear and abrasion
- optimizes oil and fuel consumption
- protects against rust and corrosion
- prevents deposits in the oil and lubrication circuit
- neutralizes harmful motor acids
- protects against sludge
- guaranteed soft motor running
- prevents the hardening of seals, has a sealing effect
- increases operational safety of the vehicle
- significant oil savings
- reduced exhaust emissions and longer catalytic converter life
- less wear and longer service life of the units
- improved engine power
